Growing Your Royal Burgundy Bush Beans

Supplies small cup, pebbles, bean seed, dirt, water, sunlight

- Place pebbles in the bottom of a small cup - this will allow for draining
- Add dirt on top of the pebbles until cup is almost full
- Using your index finger insert your finger into the dirt up to your first knuckle
- Insert your seed into the hole you have just made
- Cover seed up with dirt
- Water your seed every other day
- Place cup in window with direct sunlight
